Instructions:

Evaluators must rate each requirement outlined in the table below as one of the following: (i) Exceptional; (ii) Good; (iii) Acceptable; (iv) Potential to Become Acceptable; or (v) Unacceptable. Please note the following explanations when rating each requirement:

1) A rating of Exceptional is appropriate when the Proposer has demonstrated an approach that is considered to significantly exceed stated criteria in a way that is beneficial to the MBTA. This rating indicates a consistently outstanding level of quality, with very little or no risk that this Proposer would fail to meet the requirements of the solicitation. There are no weaknesses.

2) A rating of Good is appropriate when the Proposer has demonstrated an approach that is considered to exceed stated criteria. This rating indicates a generally better than acceptable quality, with little risk that this Proposer would fail to meet the requirements of the solicitation. Weaknesses, if any, are very minor. Correction of the weaknesses would not be necessary before the Proposal would be considered further.

3) A rating of Acceptable is appropriate if the Proposer has demonstrated an approach that is considered to meet the stated criteria. This rating indicates an acceptable level of quality. The Proposal demonstrates a reasonable probability of success. Weaknesses exist but can be readily corrected through requests for Clarification or Communications.

4) A rating of Potential to Become Acceptable is appropriate if the Proposer has demonstrated an approach that fails to meet stated criteria as there are weaknesses, but they are susceptible to correction through Discussions. The response is considered marginal in terms of the basic content and/or amount of information provided for evaluation, but overall the Proposer is capable of providing an acceptable or better Proposal.

5) A rating of Unacceptable is appropriate if the Proposer has demonstrated an approach that indicates significant weaknesses and/or unacceptable quality. The Proposal fails to meet the stated criteria and/or lacks essential information and is conflicting and/or unproductive. There is no reasonable likelihood of success; weaknesses are so major and/or extensive that a major revision to the Proposal would be necessary.
